EDUCATION

Carnegie Mellon University

Master's, Human Computer Interaction

August 2025 - August 2026

- ScottyLabs Designer
- TartanHacks Organizer/Judge
- Dean's List

Parsons School of Design

Bachelor's, Minor : Creative Coding and Communication Design

September 2022 - May 2025

Bachelor's, Business Administration

August 2021 - May 2025

- Dean's List 2021-2025

PROFESSIONAL EXPERIENCE

Carnegie Mellon University

Pittsburgh, PA, USA

Research Assistant- Game Researcher

January 2026 - Present

- Spearheading a multidisciplinary independent study evaluating transformational games aimed at improving student engagement with failure and iteration
- Direct the end-to-end research lifecycle, encompassing study design, Institutional Review Board (IRB) ethics approval, and data collection
- Design research instruments and execute qualitative and quantitative analyses in partnership with production and prototyping teams.
- Facilitated workshops to discuss findings and refine product strategy, enhancing team collaboration and ensuring that research outcomes effectively supported game design objectives.
- Deliver cleaned datasets and comprehensive analysis reports to support future academic dissemination and game prototype refinement

Carnegie Mellon University, Data Interaction Group (DIG)

Pittsburgh, PA, USA

Research Assistant - Generative AI Tools for Radiology Training

December 2025 - Present

- Contribute to the development of MedSyn, a human-centered generative AI platform for text-to-3D CT scan synthesis in clinical education.
- Engineer data mapping and preprocessing pipelines using Python to organize real radiology scans for model evaluation
- Facilitate interface testing for an open-source GenAI radiology viewer, integrating synthetic outputs into diagnostic and educational workflows.

MBG360

New York, NY, USA

Front End Development Intern

April 2025 - August 2025

- Led the end-to-end design and coding of responsive web pages using HTML, CSS, and JavaScript to improve mobile usability.
- Developed custom front-end components and personalized high-fidelity prototypes within Figma, Kajabi, and Squarespace.
- Iterated on designs based on direct stakeholder feedback and collaborative input from finance and marketing teams.
- Optimized front-end performance and accessibility, resulting in improved page load times across B2B product landing pages.

New School Free Press

New York, NY, USA

Web Developer

September 2024 - June 2025

- Revamped the school newspaper website's layout and functionality to enhance user experience, navigation, and accessibility.
- Coded and designed specific thematic sections for individual issues, focusing on visually striking storytelling and responsive layouts.
- Produced engaging digital graphics and promotional content for social media platforms to increase online presence.

Whitney Museum of American Art

New York, NY, USA

Digital Content Intern

September 2024 - December 2024

- Produced short-form video content and digital assets for web and social media dissemination.
- Contributed to strategic planning for upcoming exhibitions and conducted archival research for documentary-style video projects.
- Supported live-streaming operations, interview transcriptions, and digital asset management.

The Metropolitan Museum of Art

New York, NY, USA

Digital Intern

September 2023 - December 2023

- Orchestrated content migration to a new Content Management System (CMS), enhancing organizational efficiency and web accessibility.
- Managed quality assurance assessments for a high-volume video backlog and executed the archiving of "Connections" video content.
- Utilized digital audio tools to edit and mix audio for broadcast and film projects, ensuring high production standards.
- Oversaw end-to-end project management of content distribution workflows on the "Perspectives" platform.
- Worked on the Great Hall exhibition about Jacob Lawrence with Interaction Design principles
